## 15 Convert fahrenheit into celsius

```
#include <stdio.h>

int main() {

    int fahrenheit,celsius;

    printf("32");

    scanf("%d", &fahrenheit);

    celsius = ((5/9)*(fahrenheit-32));

    printf("celsius = %d\n", celsius);

    return 0;

}
```

The screenshot shows a window titled "Output" with a "Clear" button in the top right corner. The output text is as follows:

```
32((5/9) * (32-32))=
celsius = 0

=== Code Execution Successful ===
