18 Area and perimeter of a rectangle

```c
#include <stdio.h>

int main() {

int area, perimeter, length, width;

printf("Enter length, width: ");

scanf("%d, %d" &length, &width);

(area = (length) * (width)), (perimeter = 2 *
(width+length ));

printf("area, perimeter = %d\n, %d\n", area,
perimeter);

return 0;

}
```
